
Mixed Markets. Mixed News.

Weekly Update – June 12, 2017

Markets last week were mixed with leading tech stocks falling dramatically as some investors pulled profits.¹ The NASDAQ took the biggest hit, finishing 1.55% down on the week—its worst week of the year.² Meanwhile, the Dow rose 0.31% for the week, notching another record close on Friday.³ The S&P 500 fell 0.30%, and the MSCI EAFE closed the week down 1.22%.⁴

The S&P tech sector dropped 3.3% on Friday; however, it remained up 18% for the year. Major tech stocks account for almost 13% of the total number of stocks in the S&P 500, while comprising nearly 40% of the S&P 500 increase for the year.⁵

Internationally, Asian markets were mixed while European markets closed the week generally higher.⁶ The European equities markets took last week's UK election in stride, though the pound dropped in response to the Conservatives losing their majority.⁷

Domestically, monthly job openings exceeded 6 million in April. Hiring, however, has slowed to only 5 million per month, suggesting workers' skills may not match job needs. Moreover, the economy continues to show signs of softening.⁸

Indications of a Softer Economy

- **Wholesale and Retail Inventories Down:** Revised wholesale inventories shrank 0.5% in April, the largest contraction in more than 12 months. In addition, retail inventories fell in April as sales weakened.⁹
- **Inflation Slows:** As noted last week, consumer prices remain weak. Inflation slowed in April to an annual rate increase of 1.7% year-over-year, down from the 1.9% recorded in March and 2.1% in February. Falling oil prices, excessive auto inventories, and increasing apartment rental inventories will all create headwinds to reaching the Fed's target rate of 2.0%.¹⁰
- **Factory Orders Down:** Factory orders fell 0.2% in April. While motor vehicles rose 0.6% and computers gained 1.6%, durable goods orders fell 0.8%.¹¹
- **Oil Prices Drop:** Though summer driving season is here, U.S. gasoline demand dropped by nearly a half-million barrels a day. While the need for fuel fell—and despite beliefs that oil would fall by 3.5 million barrels—stockpiles rose by 3.3 million barrels. As a result, oil dropped by 4%, ending the week at \$45.86 per barrel.¹²

What Comes Next

The Fed will hold a meeting this week to determine whether to raise interest rates. Expectations are that the Federal Open Market Committee (FOMC) will raise the fed funds rate 0.25% to 1.25% despite the soft economic news, which the Fed characterized as

“transitory.” The FOMC meeting will also address quarterly forecasts for the remainder of the year.¹³ The markets expect both Japan and Britain's central banks to also address the issue of interest rates.¹⁴

In addressing the federal debt, the Treasury Secretary assured last week that the U.S. will not default on its debt. Congress must address the debt limit this summer or fall, but markets may react negatively if delays occur.¹⁵ Meanwhile, Congress continues to wrestle with policy questions around tax reform, an infrastructure program, and healthcare reform. How the government addresses these important initiatives could alter market dynamics in the future.¹⁶

ECONOMIC CALENDAR

Wednesday: Consumer Price Index, Retail Sales, Business Inventories, FOMC Meeting Announcement

Thursday: Industrial Production, Housing Market Index

Friday: Housing Starts, Consumer Sentiment

DATA AS OF 6/9/2017	1 WEEK	SINCE 1/1/17	1 YEAR	5 YEAR	10 YEAR
STANDARD & POOR'S 500	-0.30%	8.62%	14.95%	12.90%	4.90%
DOW	0.31%	7.64%	18.27%	11.12%	4.71%
NASDAQ	-1.55%	15.32%	25.19%	16.78%	9.20%
INTERNATIONAL	-1.22%	12.41%	12.99%	7.08%	-1.53%
DATA AS OF 6/9/2017	1 MONTH	6 MONTHS	1 YEAR	5 YEAR	10 YEAR
TREASURY YIELDS (CMT)	0.80%	1.13%	1.20%	1.77%	2.21%

Notes: All index returns (except S&P 500) exclude reinvested dividends, and the 5- year and 10-year returns are annualized. The total returns for the S&P 500 assume reinvestment of dividends on the last day of the month. This may account for differences between the index returns published on Morningstar.com and the index returns published elsewhere. International performance is represented by the MSCI EAFE Index. Past performance is no guarantee of future results. Indices are unmanaged and cannot be invested into directly.

QUOTE OF THE WEEK

"Only those who will risk going too far can possibly find out how far one can go."

– T.S. Eliot

RECIPE OF THE WEEK

No-Churn Black Forest Ripple Ice Cream

Easy, homemade ice cream.

Serves 12

Ingredients:

12 ounces cherries, pitted
¼ cup sugar
2 cups heavy cream, very cold
1 can sweetened condensed milk
2 TBSP water
1 tsp pure vanilla extract
4 ounces chocolate chunks, bittersweet
Ice cream cones (optional)

Directions:

1. Combine sugar, cherries, and 2 TBSP of water in a large saucepan.
2. Bring mixture to a rolling boil then reduce heat. Simmer until cherries break down and liquid thickens into a syrup, stirring frequently for about 10 – 12 minutes.
3. Place cooked cherries in a bowl and cool in refrigerator for roughly 15 minutes.
4. Combine condensed milk, cream, and vanilla in a large bowl. Beat with electric mixer for roughly 3 – 4 minutes, until you form stiff peaks.
5. Fold the chocolate chunks gently into the milk mixture.

6. Grab a 4.5" x 8.5" loaf pan or a 1.5-quart container that can go in the freezer, and add half the cream mixture.
7. Spoon half of the cherry syrup on top of the cream mixture.
8. Continue adding layers of the cream and cherry mixtures until used.
9. Place pan in freezer for at least 4 hours until the ice cream sets.
10. Cover frozen ice cream with plastic wrap, and store in freezer for up to 2 weeks.

Access the IRS Resources for Your Tax Help

The IRS has a variety of online tools available to help you streamline and clarify the tax-filing process. From apps to videos and more, you can access a variety of tools for free. Here is a list of helpful resources.

- **Use the IRS App:** You can find a variety of helpful resources, such as paying your refund, by downloading the official IRS app, [IRS2Go](#).
- **Ask Tax Questions:** Find the answers you need by using [Interactive Tax Assistant](#) and the [IRS Tax Map](#).
- **Track Refund Status:** You can check your refund status by using the tool, ["Where's My Refund?"](#)
- **Check Earned Income Credit Eligibility:** The IRS tool, [EITC Assistant](#), can help you identify whether you're eligible to receive earned income credits.
- **Pay Account Online:** You can pay any money you owe to the IRS by checking out its [payment options](#).

Other details may apply, and you can find more information on [the IRS website](#).

Please Note: This information is not intended to be a substitute for specific individualized tax advice. We suggest you discuss your specific tax issues with a qualified tax advisor.

Tap Into Your Imagination to Improve Your Putt

The ability to imagine the path your ball will take is a powerful trick. By envisioning the effect the terrain has on your ball, you can better anticipate the best path to the pin. If predicting your path on the green is challenging, here are some tips that will help tap into the power of your imagination. To do this practice, you'll want to be within a few feet of the hole.

Focus on Distance

Step 1: Look at the hole and imagine the place your ball will be right before it lands in the hole.

Step 2: Place a ball 6 inches away from where you imagine the first landing. Next, place another ball a foot away from where you imagine the first landing. Repeat in consecutive intervals at 1½ feet and then at 2 feet. Continue doing this until you land at the place from where you are practicing.

Focus on Speed

Step 3: Envision the speed the ball will need to travel your imagined path and sink the putt. You also need to analyze how speed can work against you.

Step 4: Square yourself to the imagined line.

Step 5: Practice putting and using the right speed by aiming for a coin or tee at the fall line. Putt in such a way that your ball arrives at your identified spot on the high side.

Self-Management Tips for Managing Varicose Veins

Controlling or eliminating varicose veins on your own is not possible. But with some self-care, you can help minimize their intensity and even potentially reduce how many you develop. To do so, start following these self-care tips:

- **Start walking:** If you don't already walk regularly for exercise, consider doing so. The movement encourages proper blood circulation in your legs, which can help you manage varicose veins.
- **Be mindful of your attire:** Shoes with low heels will work your calf muscles more than high heels, which is better for your veins. Opting to not wear tight clothing around your groin, waist, and legs can also help you improve your blood flow.

- **Avoid sitting with crossed legs:** This position can potentially decrease circulation, a direct factor in varicose veins.
- **Add variety to lengthy standing or sitting positions:** You can increase your blood flow by changing your position from time to time when sitting or standing for long durations.

Alternative Mulch Ideas for Your Garden

Mulching your garden beds is a great way to manage a healthy yard. Mulch can control weeds, regulate moisture, and even keep bugs at bay. While mulch made from wood chips and shredded bark is common, mulch can really reference anything that covers your garden. Here are some alternative mulch ideas to help you keep your garden healthy and growing.

- **Wine cork mulch:** Americans go through nearly 13 billion wine corks each year, many of them being thrown away. You can give your corks new life by using them as mulch in your garden. Corks are usually a natural material made from the Mediterranean cork oak tree, meaning the natural properties will do fine as mulch. You can either buy pre-made wine cork mulch or [make your own](#).
- **Newspaper:** Give your newspaper new life by turning it into mulch. Newspaper blocks out light, which stops weeds from growing. Only use newspapers printed in black and white, as color ink can contain some harmful chemicals. Follow these tips to [make your own newspaper mulch](#).
- **Yard debris:** Repurpose all your lawn clippings and plant scraps—like flowering plants—into mulch for your gardens. You also can spread your fall leaves as mulch. Combine all this debris into an organic compost or simply spread directly onto your garden.
