
Economic Normalization Near?

Weekly Update – May 4, 2020

The Week on Wall Street

Stock prices ended the week slightly lower, despite news of positive results from a test trial of a COVID-19 drug treatment and several states easing their economic lockdowns.

The Dow Jones Industrial Average slipped 0.22%, while the Standard & Poor's 500 lost 0.21%. The Nasdaq Composite Index dropped 0.34%. The MSCI EAFE Index, which tracks developed stock markets overseas, rose 4.34%.^{1,2,3}

Light at the End of the Tunnel?

Investors were emboldened last week by two significant developments: a quickening in the pace of state re-openings and positive results from a clinical trial of pandemic treatment. These developments turned investor focus toward economic normalization and away from the economic destruction that has occurred.

Market optimism was also supported by earnings reports early in the week, which showed that some companies were navigating reasonably well through the crisis. But stocks retreated on Friday as traders reacted to mixed earnings from two tech titans. The two firms offered a reminder that even the strongest companies have not escaped the economic impact of the pandemic.

Worries over possible new China trade tariffs also weighed on stocks as the trading week came to a close.

Corporate Earnings

It was a busy week for corporate earnings reports. So far, the earnings season has been mixed; it has provided some clarity, though, about the impact of COVID-19 on businesses.

With 193 of S&P 500 companies reporting, 65% have checked in with results ahead of consensus Wall Street estimates. Among the better-performing sectors to date were Technology and Consumer Staples. Financials were among the laggards.^{4,5,6}

Final Thought

Despite the continued shutdown of businesses nationwide, stocks staged a powerful rebound in April, leading some to wonder if Wall Street is disconnected from Main Street. But market watchers are quick to point out that Main Street may not be as

disconnected as it appears. April's rally was led by a group of very large companies, with over 75% of stocks in the S&P 500 trading below their 200-day moving average.⁷

THIS WEEK: KEY ECONOMIC DATA

Monday: Factory Orders.

Wednesday: Automatic Data Processing (ADP) Employment Report.

Thursday: Jobless Claims.

Friday: Employment Situation Report.

Source: Econoday, May 1, 2020

The Econoday economic calendar lists upcoming U.S. economic data releases (including key economic indicators), Federal Reserve policy meetings, and speaking engagements of Federal Reserve officials. The content is developed from sources believed to be providing accurate information. The forecasts or forward-looking statements are based on assumptions and may not materialize. The forecasts also are subject to revision.

THIS WEEK: COMPANIES REPORTING EARNINGS

Monday: Skyworks Solutions (SWKS), Tyson Foods (TSN)

Tuesday: Walt Disney (DIS), Electronic Arts (EA), Prudential Financial (PRU), Illinois Tool Works (ITW), Sysco (SYY)

Wednesday: Square (SQ), CVS Health (CVS), General Motors (GM), Shopify (SHOP), T-Mobile (TMUS)

Thursday: Bristol-Myers (BMY), Anheuser-Busch (BUD), Becton Dickinson (BDX), Danaher Corp. (DHR)

Companies mentioned are for informational purposes only. It should not be considered a solicitation for the purchase or sale of the securities. Any investment should be consistent with your objectives, time frame and risk tolerance. The return and principal value of investments will fluctuate as market conditions change. When sold, investments may be worth more or less than their original cost. Companies may reschedule when they report earnings without notice.

QUOTE OF THE WEEK

“Inspiration comes from within yourself. One has to be positive. When you're positive, good things happen.”

– Deep Roy

Celebration Chocolate Cupcakes

Makes 12 to 14 servings

Ingredients:

- $\frac{3}{4}$ cup all-purpose flour
- $\frac{1}{2}$ cup cocoa powder (unsweetened)
- $\frac{3}{4}$ tsp. baking powder
- $\frac{1}{2}$ tsp. baking soda
- $\frac{1}{4}$ tsp. salt
- 2 large eggs
- $\frac{1}{2}$ cup granulated sugar
- $\frac{1}{2}$ cup brown sugar
- $\frac{1}{3}$ cup melted coconut oil
- 2 tsp. vanilla extract
- $\frac{1}{2}$ cup buttermilk, room temperature
- Frosting of choice

Directions:

1. Preheat the oven to 350° F.
2. Between two muffin pans, line them with 14 cupcake liners.
3. In a large bowl, whisk flour, cocoa powder, baking powder, baking soda, and salt together.

4. Whisk the eggs, granulated sugar, brown sugar, oil, and vanilla together in a second bowl until combined and smooth.
5. Add half of the egg mixture into the flour mixture, followed by half of the buttermilk, then mix.
6. Add the rest of the egg mixture and buttermilk, then stir, but do not overmix. If you do, this will thin the batter.
7. Carefully add the batter into the liners with a spoon, only halfway.
8. Bake for 18 to 21 minutes, or until a toothpick comes out clean.
9. Cool completely.
10. Add preferred frosting and sprinkles, or otherwise, decorate to taste.

Preparation is Key

With this year's tax deadline moved to July 15th, you might be tempted to push your taxes to the back of your mind. Now is a good time, however, to set up a system that will keep your tax records safe and easy to find. Here's how to make organizing your taxes even easier:

- Speak to a professional about tax minimization strategies you can employ.
- Already worried about next year's tax burden? Adjust your withholding to avoid a big bill at tax time.
- Take action when your life changes. Getting married or divorced, having a child, incorporating a business – these are all life changes that may affect your taxes. Speak to a professional about updating your tax information.
- Keep all your tax documents organized in one place. Add files, documents, and receipts as they arrive.
- Find a tax specialist. If you're not currently working with a tax professional, now is a good time to interview one.

* This information is not intended to be a substitute for specific individualized tax advice. We suggest that you discuss your specific tax issues with a qualified tax professional.

A Takeaway Tip

Most of the tour pros who crush the ball off the tee have long, flowing backswings, featuring a great takeaway and a big arc that sets up a powerful downswing. One simple exercise can promote this.

Find a backless bench about 1' wide (you might see one on the next tee, in fact). Get your driver and take your stance on one side of the bench and put your driver over the other side. (In other words, put the foot-wide bench seat between you and your club.) Now make your takeaway with your driver and try to go as far back as you can. The bench prevents you from pulling your driver to the inside, and it teaches you how to extend your takeaway for a larger, powerful arc.

Journaling for Your Health

A pen, some paper, your hand, and your brain. Who would have thought that this quartet could yield some serious benefits to your health? Journaling has been around for over a thousand years. Studies show that writing engages your left brain in analytical and rational thinking, leaving your right brain free to feel, perceive, intuit, and access your subconscious. So, bearing in mind that this information is not a substitute for medical advice from a licensed health care provider, how could this process help you?

- **It calms your mind.** When you're stressed and can't work out how you're feeling, writing your thoughts in a stream-of-consciousness style may help you determine your stressors, find solutions, and resolve conflicts.
- **You get to know yourself.** Once you begin examining your inner thoughts, you'll have a better barometer of who you are.
- **Be a better problem solver.** Allowing your right brain to have some leeway can help you find creative solutions that your left brain may not have been able to concoct on its own.

Given the stress we've all experienced over the past several weeks, a journal could be a great tool to have in your wellness toolbox.

Plant Stacking in Permaculture Gardening

What is permaculture gardening, and how does it compare to regular gardening?

Quite simply, permaculture gardening is shorthand for “permanent agriculture.” Rather than changing your garden every year, a permaculture garden is designed to be a year-round affair, working with your natural environment. Every part of the garden design and planting is considered with these principles in mind: to do the least amount of labor without destroying the land.

Plant stacking is one of the easiest ways to implement permaculture gardening into your own plot. Trees are the top layer, followed by shrubs, herbaceous plants, and then ground-cover plants. Vines can be incorporated as well. Plant stacking protects your plants from exposure to wind and rain, while also maximizing the amount of space in your garden.
